Welcome to Illinois State University

STUDENT ASSOCIATION
Illinois State University
Normal, Illinois 61761

Office of Student Association

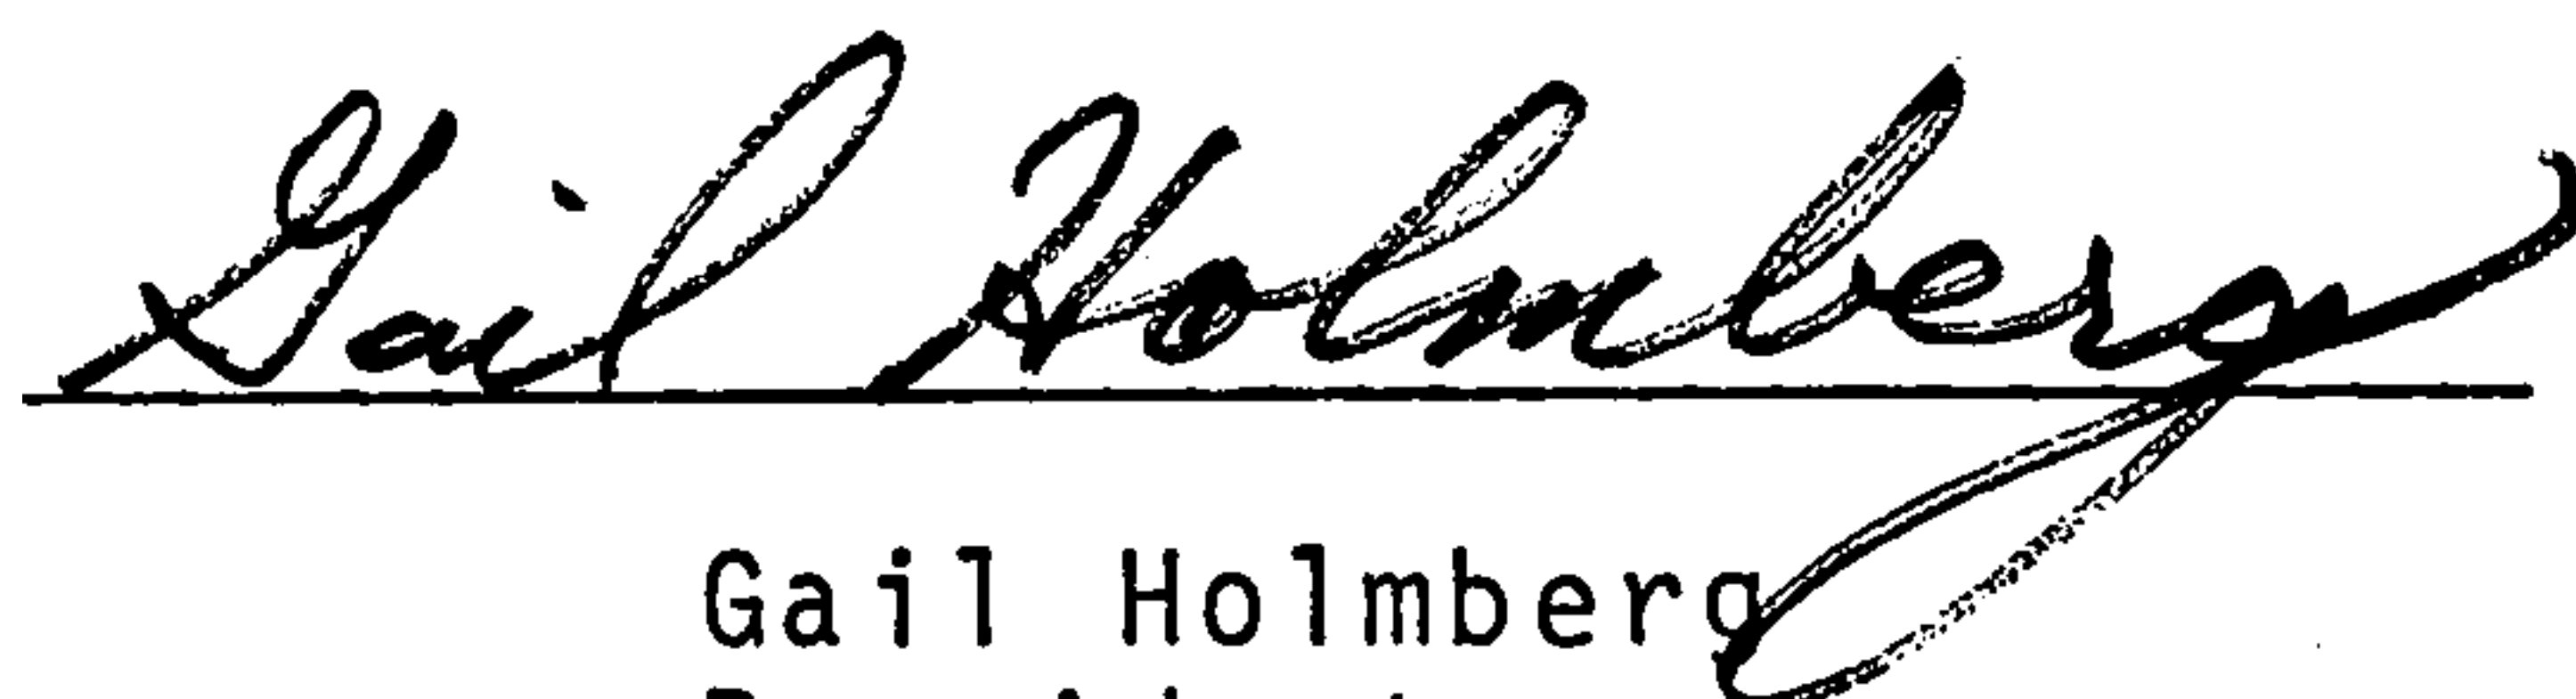

*Illinois State University
Normal, Illinois 61761*

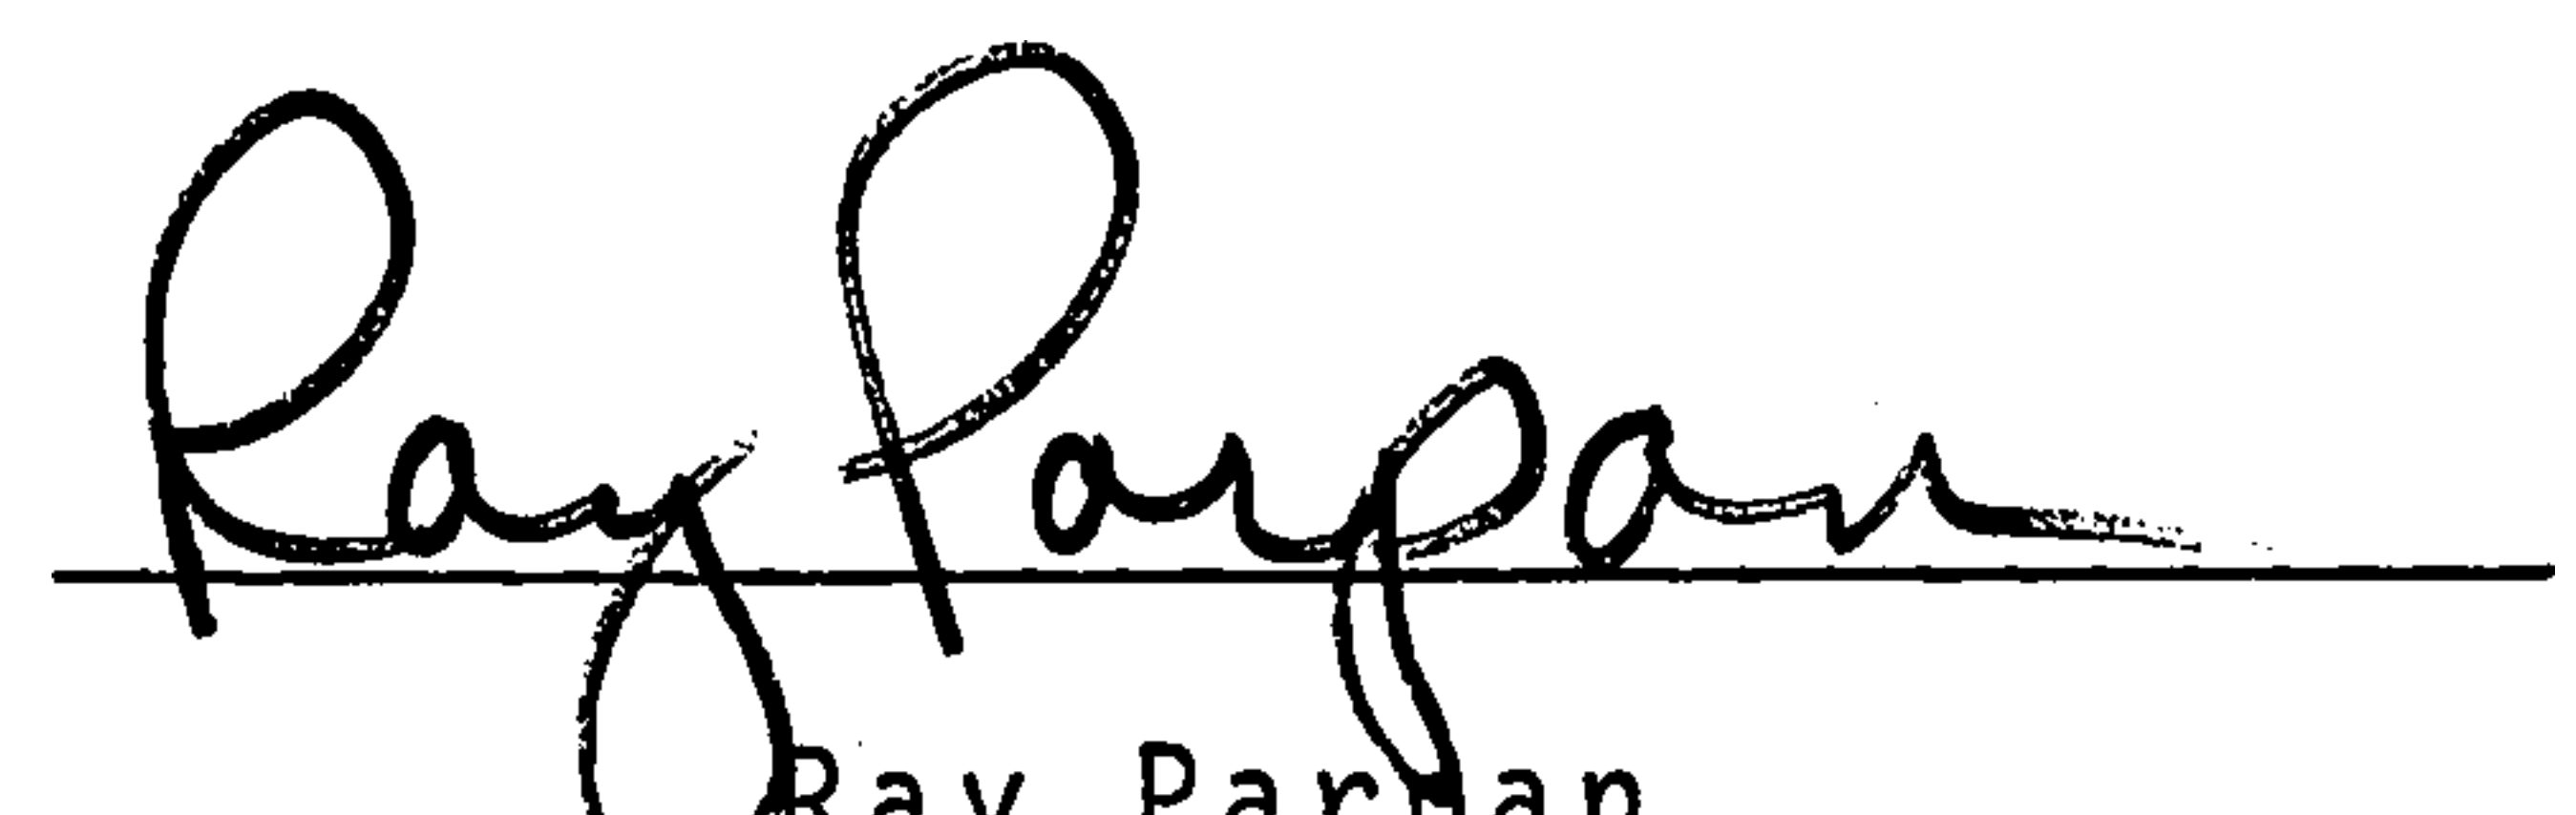

Greetings:

Since every student is a member of the Student Association by virtue of paying student fees, we figured that it was appropriate and necessary to provide students with a comprehensive explanation of the Student Association's role in student, university, and statewide governance.

Student Association is an active and involved organization working to promote students' rights and interests and to provide viable services. However, we need your support in order to be truly effective. Volunteers are always welcome. Stop by any time; check us out and rap awhile.

Join with us as we strive to serve you.

Gail Holmberg
President

Ray Parpan
Vice President

Student Association Structure

EXECUTIVES

The Student Association branch consists of a president and vice president elected at large each spring. In order to run, they must have attended ISU for at least two semesters and cannot be on academic probation.

Both are ex-officio members of the Student Association Assembly, and the president is an ex-officio member of the Academic Senate. The vice president is chairperson of the Apportionment Board, the committee which allocates student fees to student organizations. He/she is also responsible for coordinating the efforts of the Student Association committees.

The president is in charge of making student appointments including Student Association staff personnel with the approval of the Assembly. He/she oversees the Student Association fiscal budget and the Student Association as a whole. He/she also holds ultimate responsibility for the Student Association staff and the many services offered by the Student Association.

Other than these specified duties, the Student Association executives are mainly spokespeople for the ISU students, working with faculty and administrators where student rights and interests are concerned.

Student Association Assembly

The Assembly is the legislative arm of Student Association. Each spring 19 Assembly members are elected. The 19 seats are divided between on- and off-campus representatives in proportion to the actual number of on- and off-campus residents.

In order to run for an Assembly seat, a student must be a full-time student not on academic probation. He must also live in the geographic area from which he is running.

In addition to the elected members, there are seven ex-officio members, those being the Student Association President and Vice President, Academic Senate Vice Chairperson (if a student), and one representative each from Black Affairs Council, Association of Residence Halls, Interfraternity Council, and Panhellenic Council.

The Assembly deals with student-oriented concerns in contrast to the Academic Senate which is responsible for academic and university-wide concerns.

Specific duties include approving the Student Association fiscal budget, approving nominations presented by the Student Association executives, providing programs beneficial to the student body and helping with the allocation of student fees.

Basically, the Assembly does not set university policy. Instead, it represents the students' interests before whatever governing body is responsible for establishing that policy.

Student Association Staff

Executive Assistant

The executive assistant oversees the general operations of the entire Student Association office to insure the smooth and efficient working of all departments. The transmission of directions, policies, and general information between the executive officers and the general staff is also within this person's duties as well as serving as chairperson at the bi-monthly staff meetings.

Secretary

The secretary shall be responsible for maintenance of supplies, the development and implementation of office procedures and processing and any typing, filing, correspondence, etc., as requested by the Student Association staff, assembly or executive. His/her duties will also include referring incoming calls to the appropriate department or records, taking messages in the absence of the staff member or executive, distributing daily mail and greeting visitors to the office.

Finances Officer

This person's duties consist of keeping accurate and up-to-date records of all financial transactions, preparing estimations and projections for the Student Association budget and authorizing expenditures within the scope of the assembly by-laws.

External Committee Assistant

This individual is in charge of maintaining an information flow between students on various university committees and the Student Association. In addition, he/she handles screenings for all members of the Student Association assembly external committees and student nominations for all Senate external committees except those handled by the University Events Council.

Equal Rights Advocacy Department

The Equal Rights Advocacy Department consists of a Tenant Union Coordinator and an assistant, Council on Consumer Affairs Coordinator and assistant, and the University Affairs Officer. The purpose of this department is to offer services to students who feel that their rights have been infringed upon. All the individuals involved work closely with the Student Attorneys and paralegal interns in matters where legal advice or assistance is needed.

Tenant Union

The staff for the Tenant Union consists of the director, who also serves as department chairperson, and

the assistant director. They handle complaints against local landlords, provide an expanding roommate referral service, publish a tenant guide, offer a home exchange program for student teachers, and offer tenants an opportunity to evaluate local landlords and housing. In addition, the Tenant Union supplies both tenants and landlords with a model lease and advice concerning conditions of which to be aware prior to signing a lease.

Council on Consumer Affairs

The coordinator and assistant are responsible for researching and reporting price comparisons, handling consumer complaints, collecting consumer information and organizing consumer education programs.

University Affairs Officer

The basic responsibility of this person includes the acceptance, processing and channeling of student complaints to the appropriate channel within the university. This office also provides immediate, informal assistance to students having questions or problems and serves as a general liaison between members of the ISU administration and members of the student body.

Department of Information and Research

The Department of Information and Research is responsible for the collection, retrieval and storage of information relative to student issues. The staff consists of a Research Director and assistant, a Data Bank Director and an Information Corps.

Research—The job of the Research Director is to oversee the department as a whole and coordinate research projects. The assistant spends much of his/her time doing actual research. The purpose of this area is to collect information which is to be used to keep student leaders informed and protect student interests. This is to be accomplished through the use of surveys and other research techniques.

Information Corps—The Information Corps is composed of Political Science interns who are assigned to various governing bodies such as the state legislature and the Normal Town Council. They are then responsible for researching any student issue which is scheduled to be brought before those bodies.

Data Bank—The Data Bank Director is in charge of organizing and storing the information collected by the Student Association. Any student is welcome to read through any of that information.

Department of Public Information

The Department of Public Information is responsible for public relations functions, liaison with student members of committees and the development of new programs and services for students. The staff consists of a Public Relations Director, five interns to work with the Student Association newsletter, a Committee Assistant, a Special Projects Coordinator, and a Ride Exchange/Duplication staff.

Public Relations—The Public Relations Director is in charge of all the basic publicity functions and oversees the department as a whole. These functions include press releases, ads and accountability sessions. The Public Relations Director also supervises and coordinates the Information Science interns who put out the Student Association Intercom.

Ride Exchange/Duplication—The Ride Exchange/Duplication staff maintains a printing room where students may use ditto, mimeo, and copy machines. They also coordinate a ride exchange service.

Special Projects—Special Projects consists of any major project, such as voter registration, which is not already assigned to another staff member. This position is also staffed by a Political Science intern.

Committees—The Committee Assistant serves as a liaison between the student members on university committees and the Student Association. He/she is also responsible for setting up screenings to fill committee vacancies.

Services and Projects

The Student Association offers many services to ISU students. All of these services, with the exceptions of the Book Exchange and Voter Registration are operated out of the Student Association Office, 225 N. University, 436-6661. (The Book Exchange and Voter Registration are usually located in the Union.) The office is open from 8:30 a.m. to 4:30 p.m. The Ride Exchange has its own phone number, 436-6054. Student Legal Services also has its own phone, 438-2571.

Students are welcome to stop by any time and take a look at what we are doing. If you would like to get involved, we are always looking for volunteers. It is interesting work which benefits students as a whole. In addition to the listing of services which follow, students are needed to help with research, lobbying, office work and finances.

AISG

The Student Association is a member of the Association of Illinois Student Governments, the main student advocacy group in the state. AISG's efforts last year resulted in the maintenance of student fees, defeat of proposed tuition hike, and appointment of several students to governing boards. By working together, students in the state can get much more accomplished.

Book Exchange

The Book Exchange is sponsored by Student Association at the beginning of each semester. Students bring in used books and set the prices at which they want to sell them. The only cost to the student is a small handling charge which is incurred only if the book is sold.

Council on Consumer Affairs

The Council on Consumer Affairs is a consumer advocate service for students. They will follow through on complaints filed by students as well as providing various kinds of consumer information such as price comparisons. The Council on Consumer Affairs is located in Room 202A.

Freshman Record

The *Freshman Record* is a yearbook for freshmen who are interested in participating in the program.

Printing Services

Mimeo, ditto and copy machines are available to students in Room 100A of the Student Association office from 8:30 a.m. to 4:30 p.m. The only charge is for the cost of paper.

Ride Exchange

A 24-hour ride exchange service is available by calling 436-6054. Riders and drivers can call the Student Association and leave their name, phone number, social security number, destination, and departure date and time with our electronic answering service. They will be called back later and given names and numbers of students going to the same or similar destinations.

Senior Pictures

Seniors wishing placement and/or graduation pictures

may have them taken on campus by a professional studio at a student discount. Appointments will be set up one week in the fall and one in the spring. It will also be possible to purchase a senior year book.

Student Foundation

A Student Foundation is in the process of being established in order to develop a source of funds which can be used for projects for which student fees are prohibited such as lobbying and legal suits. It is also possible that these monies can be used towards scholarships. The organizational structure consists of a Board of Directors, Steering Committee, and Executive Director.

Student Legal Services

A lawyer with a staff of two secretaries and many paralegal interns comprises the Student Legal Services sponsored by the Student Association. Students may receive informal legal assistance on a wide variety of topics free of charge. In addition, if the lawyer feels that the case is of widespread concern to students (precedent setting), he may defend the student in court.

For example, in the past, the lawyer has defended many students who had problems with landlords over security deposits. However, the lawyer, because of state law, cannot sue the state or the university.

Student Legal Services is located in Room 200.

Tenant Union

The Tenant Union is probably the most comprehensive service offered by the Student Association. It handles complaints against the Housing Office and landlords.

Also offered are tenant evaluations of landlords, a model lease, lease counseling and general advice on landlord-tenant rights, literature on landlord-tenant related areas and a roommate referral service.

The Tenant Union also works closely with the student lawyer who will handle cases against landlords in court if other negotiations fail.

The Tenant Union is located in Room 202A.

University Affairs Officer

The University Affairs Officer provides immediate informal assistance to students having questions or problems and serves as a general liaison between members of the ISU administration and members of the student body.

The University Affairs Officer is located in Room 202A.

Volunteer Corp

Student Association is planning to organize a volunteer corp of interested students. This group of students will be called upon when Student Association or another organization needs additional people for a special project.

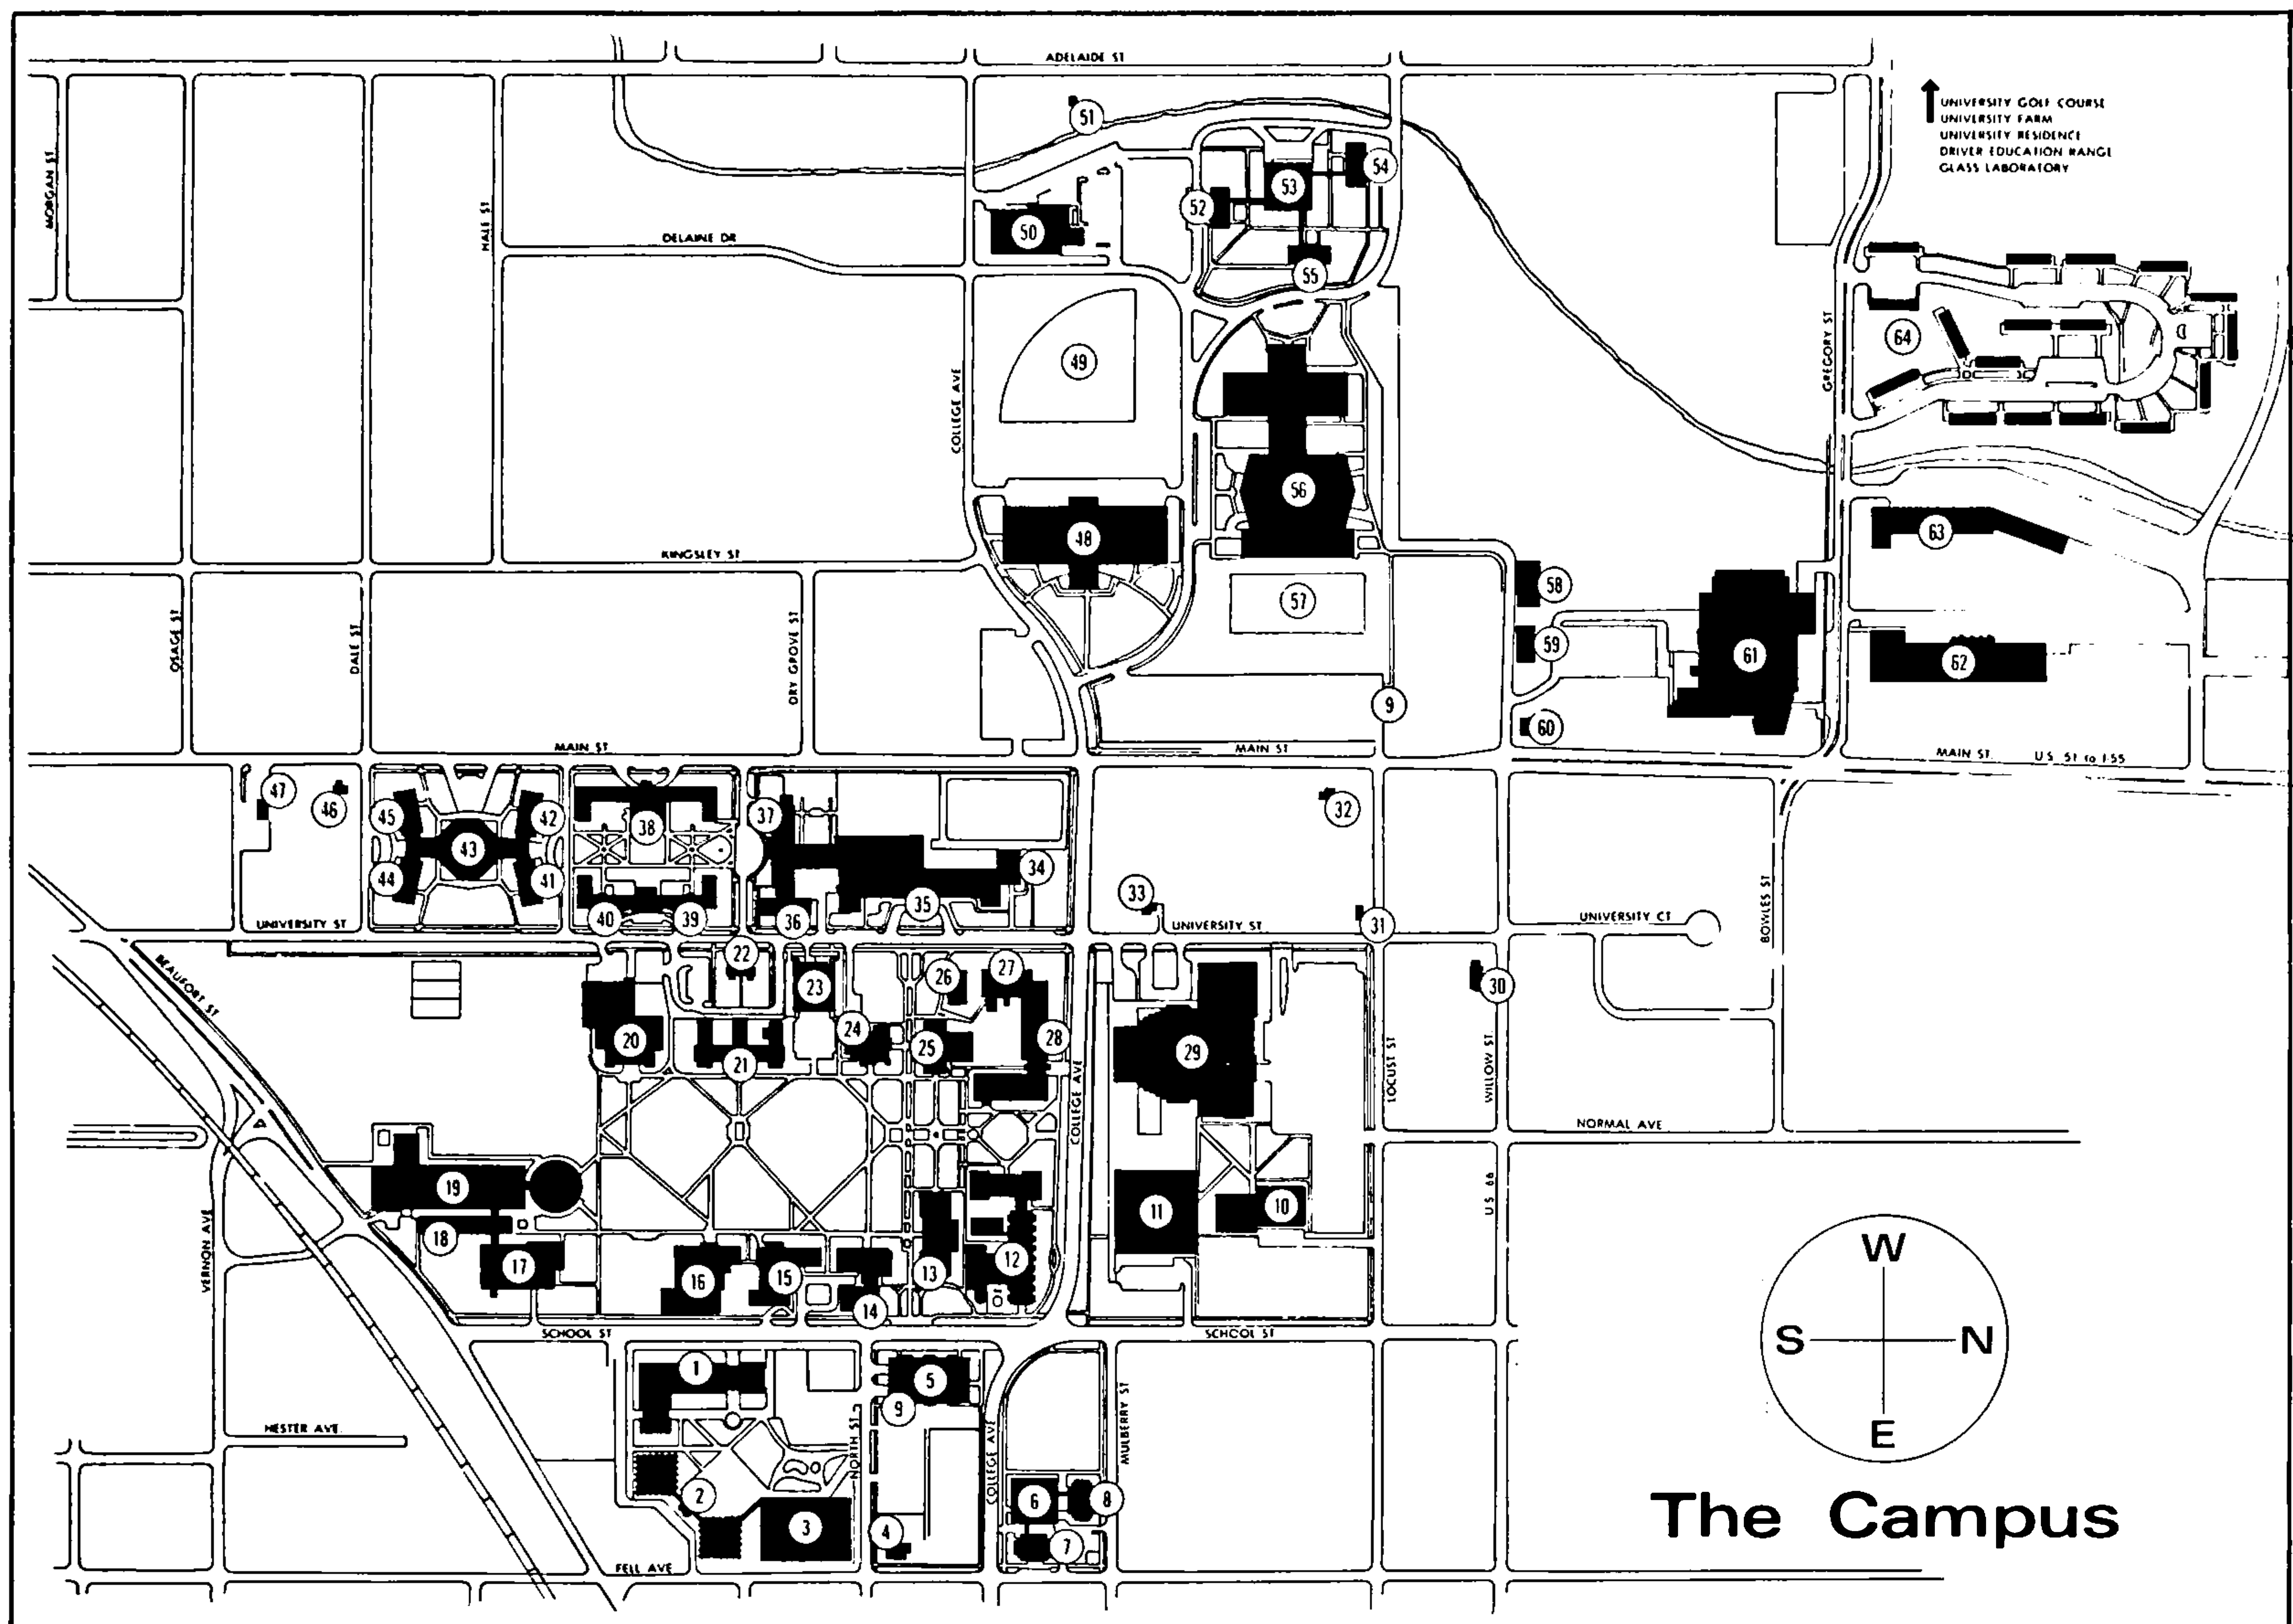

Voter Registration

County registrars are brought on campus for several days before each election in order to make it more convenient for students to register in McLean County.

In order to have political power, a group must either have money or votes. Since students do not have the money, it is even more important that we be able to deliver the votes.

In this manner, we have the possibility of influencing such decisions as that of setting the cost of tuition or parking regulations for Normal.

Shared Governance

Illinois State University operates under a system of shared governance which includes input from students, faculty, and administrators. The central element of this system is the **Academic Senate** which is surrounded by various external committees which advise the Senate on specific issues. There are also several university committees which advise the various administrative areas.

This system solicits input from the various elements of the university community before policy decisions are

made. In fact, students and faculty are even involved through search committees in the selection of high administrative officers such as the **P**resident, **P**rovost and Deans of the university.

ISU was one of the first to move towards participatory democracy in its self-governance and supports this philosophy strongly. Therefore, there are many opportunities for students to voice their opinions and take an active part in shaping the university and its policies.

Plus, participation in university governance is a unique, educational experience in that it offers an opportunity in collective decision-making as well as understanding of the workings of a functioning bureaucracy.

Academic Senate

The **Academic Senate** is the internal governing body for the university. It is made up of 27 faculty members, 18 students, and 5 ex-officio members, president of the university, president of the student body and the administrative vice presidents of academic, student and administrative affairs. The 18 elected student positions are divided proportionately between undergraduate on- and off-campus and graduate seats. In order to run for a senate seat, a student must be a full-time student who is not on academic probation. The student spokesperson on the Senate is the vice chairperson who is elected by the Senate as a whole at its first meeting.

The **Academic Senate** is responsible for academic and university-wide concerns. It performs both advisory and legislative functions. The advisory areas in-

clude the university budget, academic planning, campus buildings, academic/administrative structure, presidential and administrative appointments as well as advising the president on any matter at his request or on the initiative of the Senate.

The Senate's policy-making or legislative areas include the admissions policy; degree programs setting the university calendar; academic standards; intercollegiate activities; student life and conduct; faculty evaluation, welfare, rights and grievance procedures; and collegiate self-government. However, such recommendations then go to the **P**resident.

Most issues handled by the Senate first go through one of the five standing internal committees: **S**tudent **A**ffairs, **F**aculty **A**ffairs, **A**dministrative **A**ffairs, **R**ule, and **A**cademic **C**ommittees.

An extensive external committee structure is operated through the five standing committees of the Senate. These external committees consist of varying proportions of students, faculty, and administrators which report to their respective Senate internal committees.

Committees

In addition to the assembly and the **Academic Senate**, students may participate in various university committees. All committee vacancies are advertised in the *Vidette*. Students may then pick up applications from the Student Association Office.

Below are listed all the Senate external committees:

Academic Planning Committee
Academic Standards
Affirmative Action for Minorities Committee
Athletic Council
Council for Teacher Education
Council on University Studies
Curriculum Committee
Elections Committee
Entertainment Committee
Facilities Planning Committee
Forum Committee
General Revenue Budget Advisory Committee
Graduate Council
Honors Council
Library Committee
Parking and Traffic Committee
Reinstatement Committee
Student Code Enforcement and Review Board
Union Board

Below are listed Student Association assembly external committees:

Placement Advisory Committee
Foundation Steering Committee
University Events Advisory Committee
Student Health Advisory Committee
Academic Advisement Advisory Committee
Student Advisory Committee to Public Safety
Student Advisory Committee to Financial Aids
Legal Aid Committee
Student Advisory Committee to the Counseling Center
Apportionment Board
Student Advisory Committee to the Normal Town Council

There are also other committees and positions which students can participate in:

Academic Fee Board
Athletic Fee Board
Campus Recreation Advisory Committee
Field House Advisory Committee
Student Advisory Committee to the Board of Higher Education
Association of Illinois Student Governments
Student Member on the Board of Regents (The student member on the Board of Regents is a non-voting position on the governing body directly above the university.)

Student Fees

USES AND AMOUNTS

The present \$104.50 per semester which full-time students pay in student fees is actually divided up into five separate fees.

First of all, there is the \$33.50 for the Student Activity and General Service Fee. This fee is used to support mainly extra-curricular programs in educational, cultural and recreational areas. The level at which this fee is to be assessed is set by the Board of Regents. The manner in which this fee is allocated among the various programs is described in the following section.

The Student Health Service Fee is now set at \$10.00 per semester. The funds collected from this fee go towards the support of the Rachel Cooper Health Center. This fee is also set by the Board of Regents.

There is a Student Health Insurance Fee of \$14.00 per semester. The purpose of this insurance plan is to cover a student's costs for medical needs which cannot be taken care of on campus. This fee may be refunded upon request within ten days of the start of the semester if the student provides evidence of comparable coverage under another policy. This health insurance policy must be rebid at regular intervals through the Board of Regents. Therefore, the amount of the fee changes as the cost for the total policy goes up or down.

The University Union/Auditorium fee is now set at \$38.00 per semester. This amount is stipulated by the conditions of the bond agreement. However, if the state legislature and the governor accept the Board of Higher Education's recommendation that the state should pay a portion of the support for the auditorium, this fee may be reduced to \$28.00 per semester beginning the Fall 75 semester. It is through the union fee that the building is paid off and most of its operations and activities are maintained. However, additional revenue is generated through charges for specific events.

The final fee is \$9.00 per semester for recreational facilities such as the Field House, gymnasias, stadium, swimming pool, golf course, etc. This fee level is also stipulated by a bond agreement and is not subject to change unless there should be a drastic change in enrollment.

The above fees and levels of assessment pertain to all students registered for twelve or more hours each semester. Those students registered for less than twelve hours are only mandatorily assessed a \$19.00 Union/Auditorium fee and a \$10.00 Student Activity and General Service fee. These students may, at their own option, elect to pay the full Student Activity and General Service fee and the Health Service fee, in order to avail themselves of those programs. As far as fee assessment is concerned, it makes no difference whether one is a graduate or undergraduate student. Rather, the difference lies in the amount of hours the student is taking.
